

March 19, 2013

Dear Parents,

This letter is to inform all parents of an incident at Eddyville Elementary today (March 19th). During recess four different students indicated that a white minivan with a gold stripe that contained at least one white male invited the boys to go with him to see some puppies.

No one exited the vehicle and the vehicle did not cross onto school property. The boys were on school property and were safe at all times.

Mahaska and Wapello County Sheriff Offices are working cooperatively with the school district. The Eddyville-Blakesburg-Fremont Community School District puts student safety first. We are providing all needed information to the joint sheriff's offices. We have collaboratively developed a safety plan starting Wednesday, March 20, 2013.

If you have any questions please contact any of the following:
